Acknowledgements & Forward-Looking Statements

Dryden Gold Corp acknowledges all Indigenous Peoples and that it is operating on the traditional homelands of the Wabigoon Lake Ojibway Nation and Eagle Lake First Nation.

Certain statements contained herein constitute “forward-looking statements” within the meaning of the applicable Canadian securities legislation. These forward-looking statements are based on current expectations, estimates and projections about the Canadian mining and mineral exploration industry based on management’s beliefs and certain assumptions made by management. Readers are cautioned that such forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict, and the actual results and performance of Dryden Gold Corp. (the “Company”) may differ materially from the results implied by such statements. Readers are cautioned not to place undue reliance on any forward-looking statements. Unless otherwise required by law, the Company also disclaims any obligation to update its view of any such risks or uncertainties or to announce publicly the result of any revisions to the forward-looking statements made here.

This document contains proprietary information that is the property of Dryden Gold Corp. Neither this document, nor the proprietary information contained herein, shall be published, reproduced, copied, disclosed or used for any other purpose, other than the review and consideration of this document.

This presentation is not an offer, nor the solicitation of an offer to buy any securities. Such an offer, if made, will be made only through a prospectus or other such document issued in accordance with applicable securities laws, and other applicable laws, rules and regulations., Or pursuant to the applicable exemption from the requirement to deliver a prospectus, in accordance with applicable laws.

Historical statements contained in this document regarding past activities should not be taken as a representation that such trends or activities will continue in the future. In particular, historical results should not be taken as a representation that such trends will be replicated in the future. No statement in this document is intended to be nor may be construed as a profit forecast.

An investment in the Company is speculative and involves substantial risk and is only suitable for investors that understand the potential consequences and are able to bear the risk of losing their entire investment. Investors should consult with their own legal, tax and financial advisors with respect to all such risks before making an investment.

The Company is in the early stage of development and has a limited operational history, making it difficult to accurately predict business operations. The Company has limited resources and may run out of capital prior to becoming profitable. The Company may fail and investors may lose their entire investment.

The technical disclosure in this presentation has been approved by Maura J. Kolb, M.Sc., P.Geo. a Qualified Person as defined by National Instrument 43-101 of the Canadian Securities Administrators.

DRYDEN
GOLD CORP

Key Value Drivers

Experienced Management

History of success in building junior mining companies and navigating M&A to create shareholder value

Technical team has extensive regional experience leading the exploration team at the Red Lake Mine

Investment Upside

High-grade gold across the entire Dryden District

Limited historic drilling – 30,000 meters

System has never been drilled tested at depth

Regional Greenfield targets at Hyndman & Sherridon

Strategic investment from Centerra Gold

Favorable Mining Jurisdiction

Excellent infrastructure, including grid power

Major highway access and logging roads

Year-round drilling

Significant tax benefits and government grants

Collaborative relationships with First Nations communities

DRYDEN

Prolific Gold Region | An Under Explored District

Archean Lode Gold Mines Camps Central Canada

Limited exploration & historic mining district-wide at only shallow depths

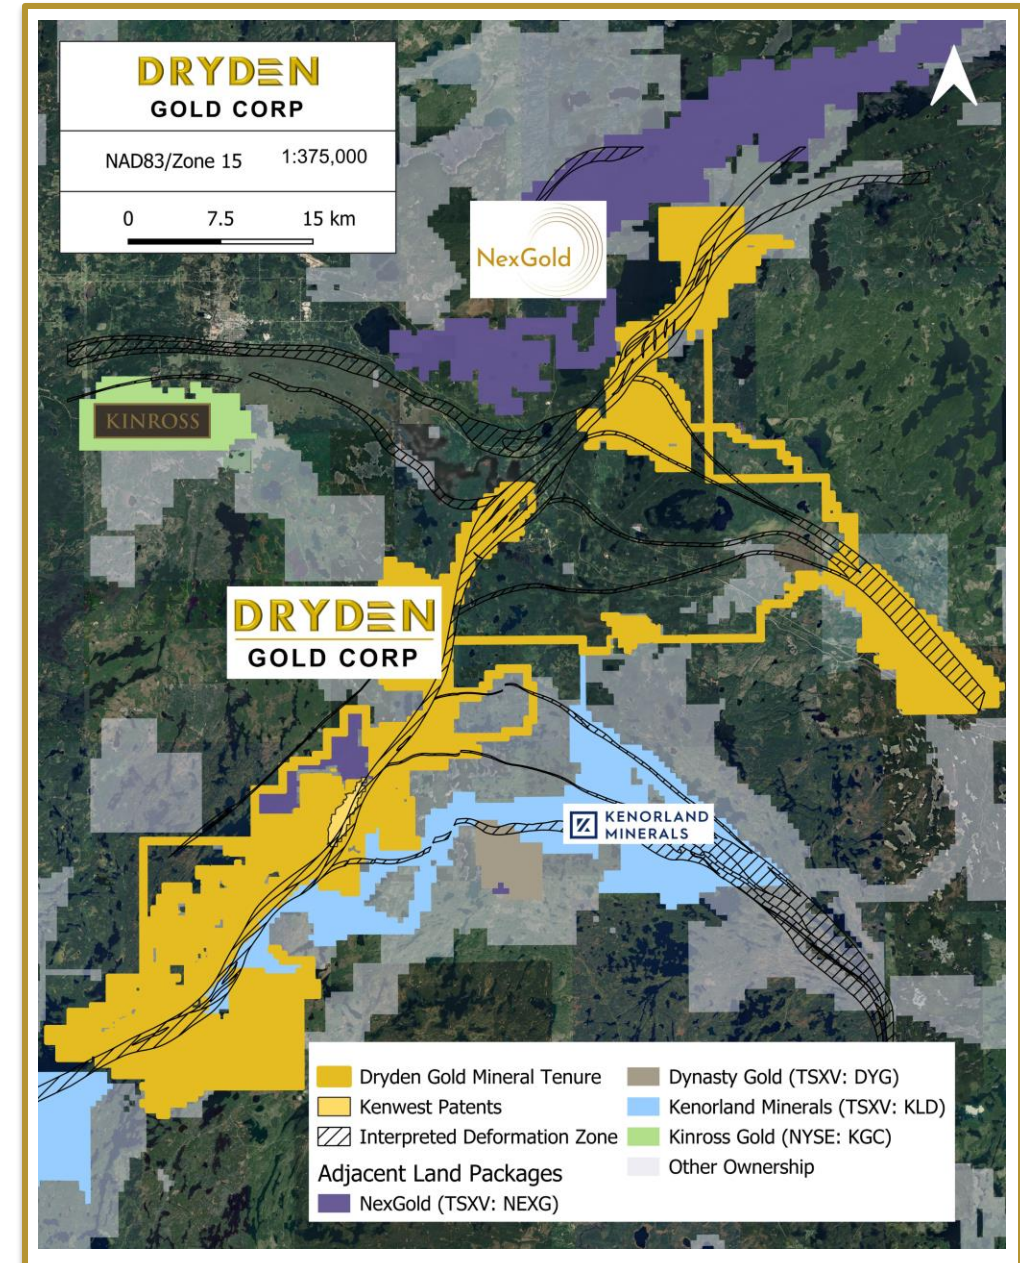

Strategic Land Package

- ▲ Over 702 km² (70,250 hectares) consolidated & 100% owned by Dryden Gold Corp.
- ▲ Excellent infrastructure – Roads, power & labor
- ▲ 50 km strike covering regional gold bearing MDdz structure (Manitou-Dinorwic deformation zone)
- ▲ Two additional cross-cutting regional gold-bearing fault structures

Strategic Exploration Method

- ▲ All oriented drill core to enhance structural interpretation
- ▲ Fully assayed drill core to define stacked structures in different host rocks
- ▲ Smaller drill passes, integrating new data for each phase insuring geological & structural controls go into targeting
- ▲ Year-round drilling at industry low cost of \$250/m (all in)

District Scale High-Grade Gold | Fully Funded for 2026

Gold Rock Camp Drill Highlights

- ▲ 301.67 g/t gold over 3.90 meters including 1,930.00 g/t over 0.60 meters
- ▲ 55.34 g/t gold over 3.50 meters
- ▲ 3,497.0 g/t gold over 8.50 meters *historic drill hole* including 53,700 g/t gold over 0.55 meters

Hyndman Field Samples

- ▲ 34.80 g/t gold grab sample 2024
- ▲ 13.00 g/t gold grab sample 2023

Hyndman Channel Samples

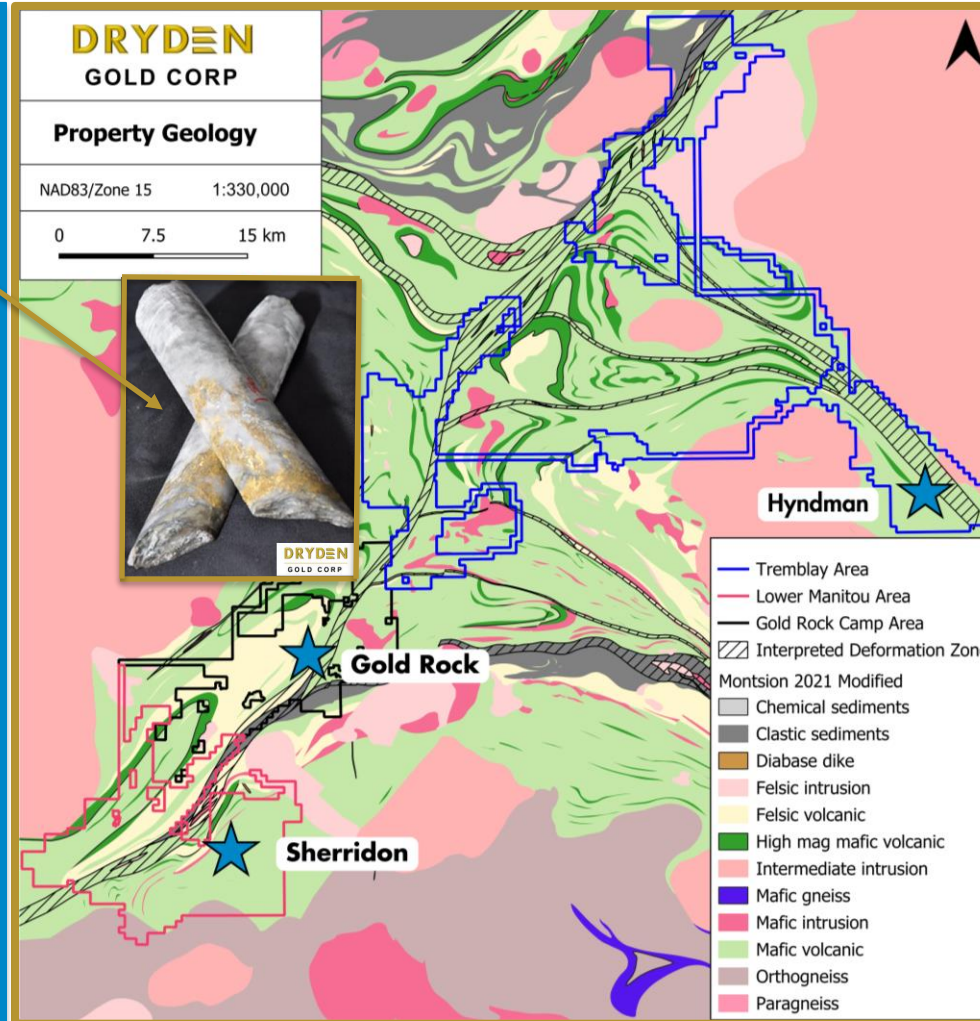

- ▲ 23.32 g/t Au over 2.80 m
incl. 24.79 g/t Au over 1.50 m
incl. 36.90 g/t Au over 0.70 m

Sherridon Field Samples

- ▲ 617.00 g/t gold grab sample (historic)
- ▲ 184.50 g/t gold grab sample (historic)

Sherridon Drill Highlights

- ▲ 1.28 g/t gold over 19.00 meters including 36.40 g/t over 0.50 meters

Two-Prong Exploration Plan

Gold Rock Camp - Our Flagship

- ▲ Fully Defining the Structures and Controls of High-Grade Gold
- ▲ Deeper Drilling
- ▲ Proving the Periodicity
- ▲ Developing Multiple Target Areas in the Gold Rock Camp (20 km)

Regional Discoveries

Hyndman

- ▲ DRY's First Regional Discovery
- ▲ Potential 4-4km Strike
- ▲ Channel Samples Generate Drill Test

Sherridon

- ▲ First Pass Drilling & Re-Logging
- ▲ Defining Broad Mineralized Zones
- ▲ New Structural Interpretation
- ▲ Planning Follow-up Drilling

Dryden Gold's Resource Pipeline

- 2025 Exploration Emphasis on **Gold Rock Camp** Targets - **Drill Permitted** for Northern Extensions
- Sherridon & Hyndman**- Two Regional Target Areas Identified and **Now Permitted** for Further Field Work & Drilling During 2025 Campaign

Regional (District) Target	Conceptual Target	Early-stage Target	Identified Target	Follow Up Target	Drill Ready Target	Early Resource Definition
Sandybeach MDdz	Snowfall Anomalies	Gold Rock West	Gold Rock East <i>Goldcliff</i>	Gold Rock North <i>untested anomalies</i>	Sherridon	Elora Gold System
Avery MDdz		Gold Rock Selby	Gold Rock South <i>Queen Alexandra</i>	Hyndman Untested Anomalies	Hyndman	Elora Extensions
Avery Wabigoon Splays		Gaffney Patents			Gold Rock North <i>Mud Lake</i>	Big Master Gold System
	Gaffney MDdz				Big Master Southern Extensions

2026 Regional Exploration

Regional Exploration Targeting New Discoveries

- ▲ Highly **prospective** land package
- ▲ **Numerous** Regional targets
- ▲ Structural Synthesis – Tectonic Evolution
- ▲ **District Scale Potential**
- ▲ Multiple Deposit Models
 - ▲ **Sherridon** (Ultramafic Host)
 - ▲ **Hyndman** (Granodiorite Host)

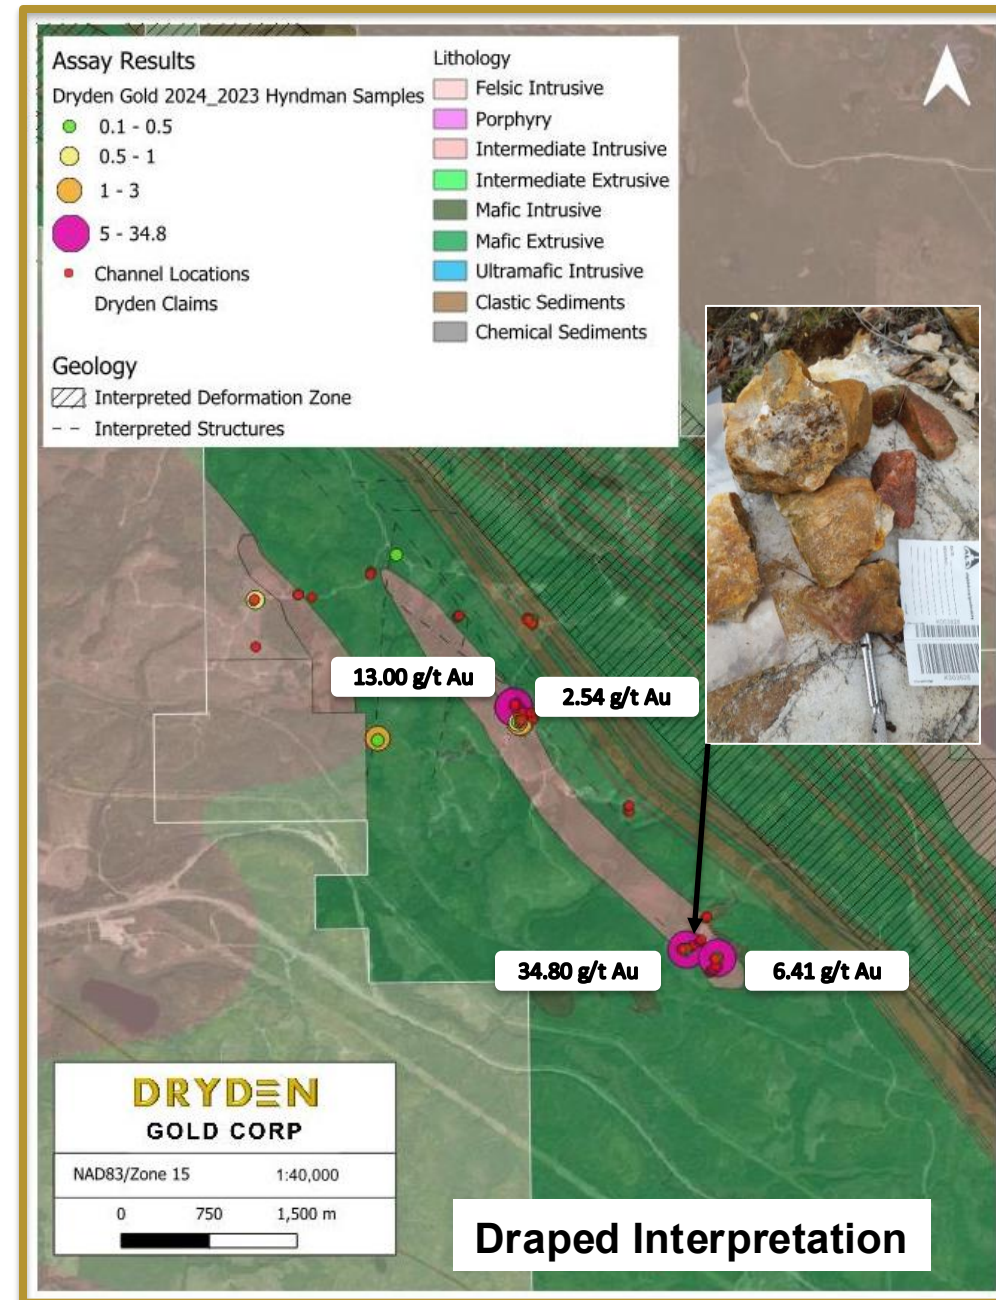

Hyndman | Regional Exploration

- Field programs in 2024 & 2023 discovered new gold showings with 19 samples returning gold values higher than 1.00 g/t gold and 6 samples returning grades over 5 g/t gold.

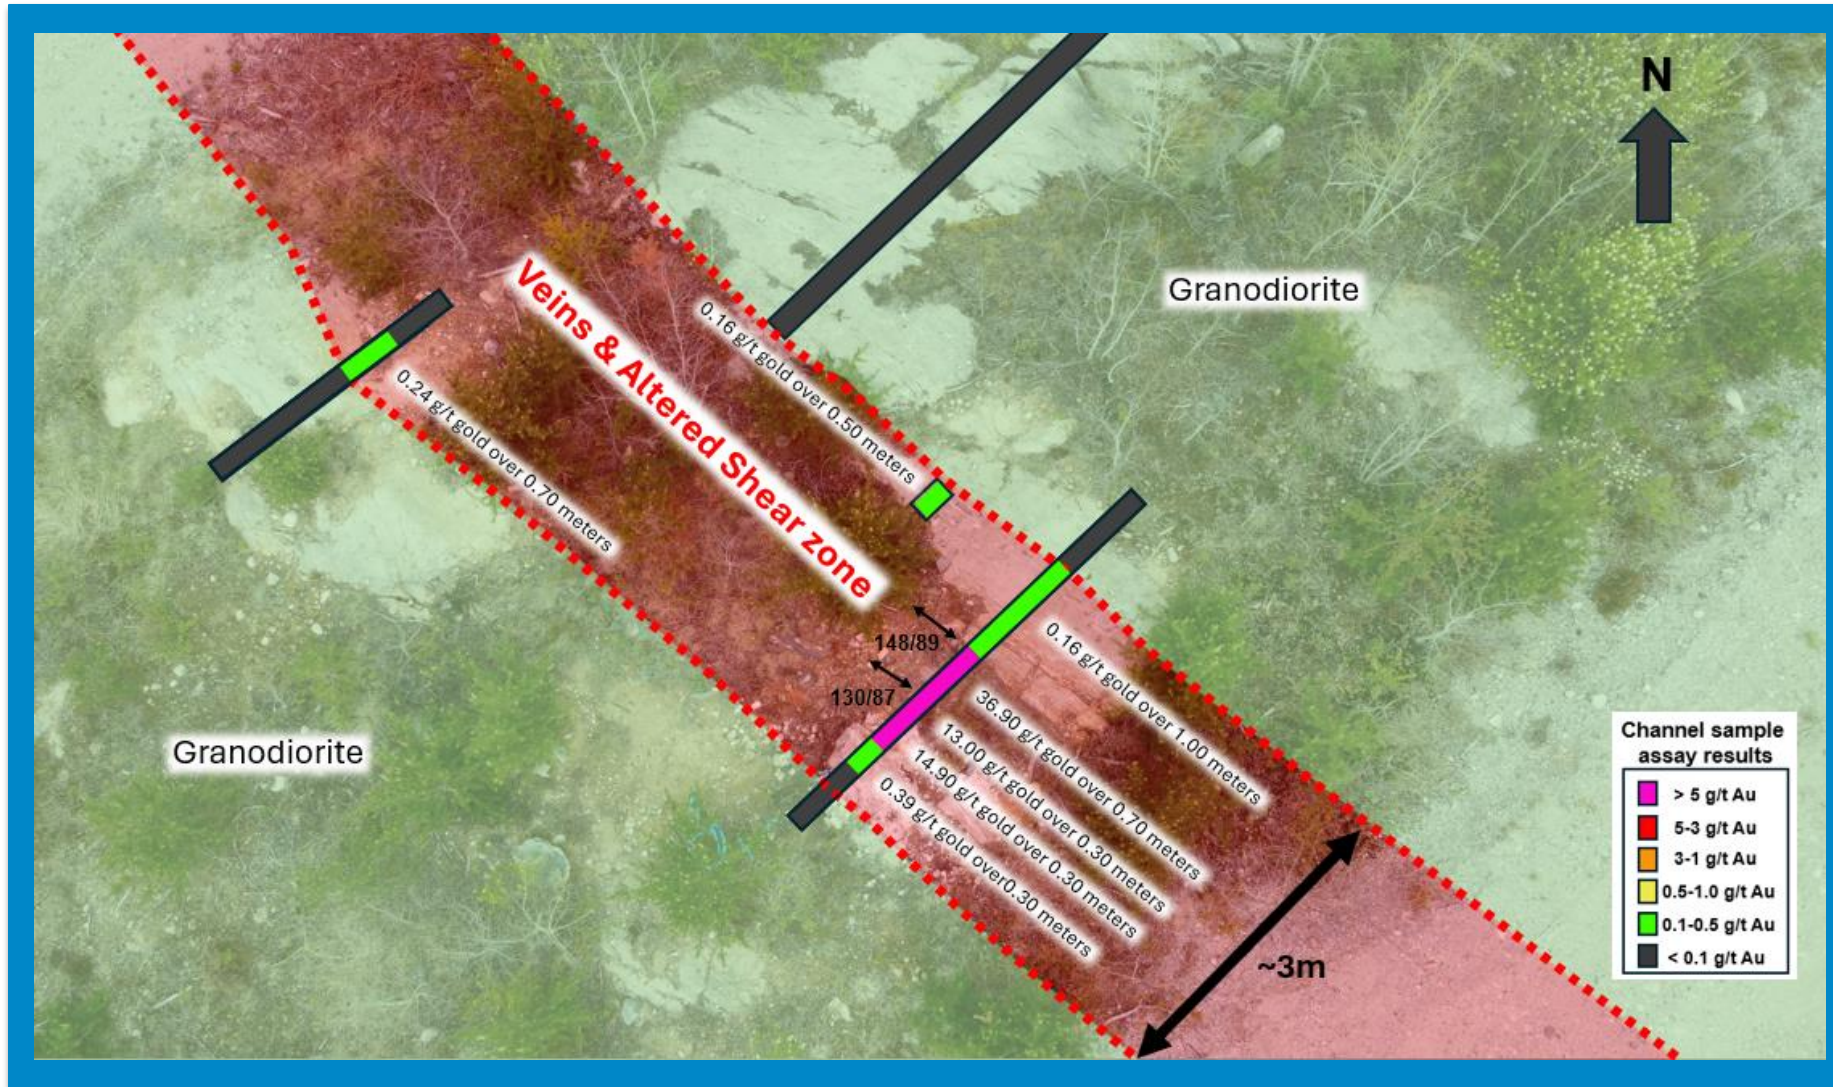

- Channel sample program from 2025 width of mineralization and sampled more difficult terrane to sample with traditional rock and hammer methods.
- 23.32 g/t gold over 2.80 meters**, incl. 24.79 g/t gold over 1.50 meters also incl. 36.90 g/t gold over 0.70 meters

- Soil and till sampling program across the property (including Hyndman) will help vector in on the full potential for additional gold-bearing targets.

DRYDEN

Hyndman | Channel Sample Results

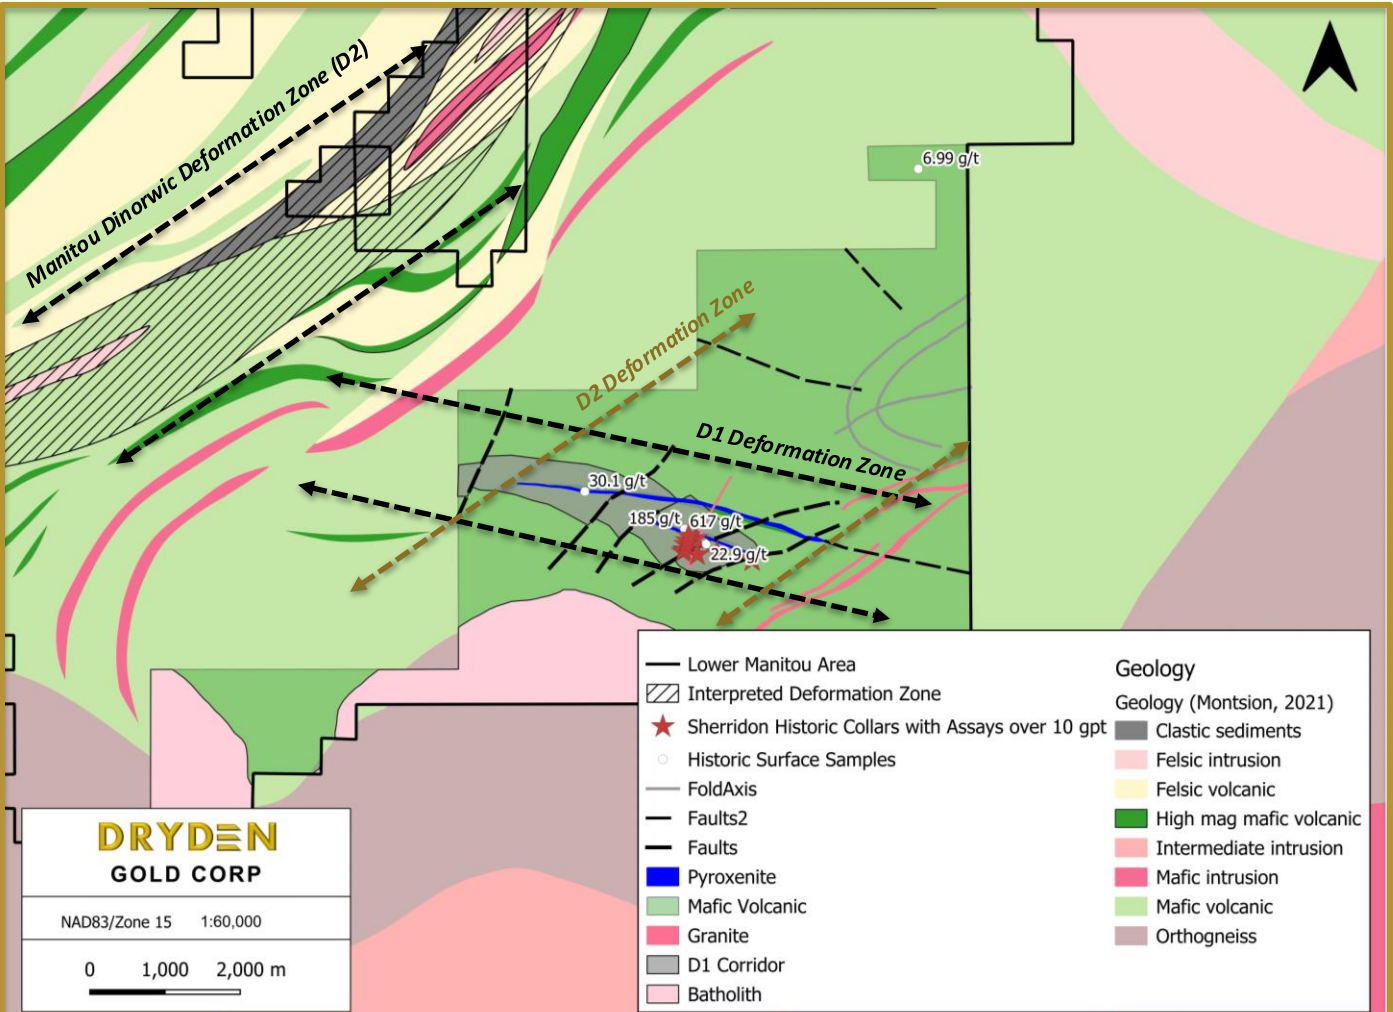

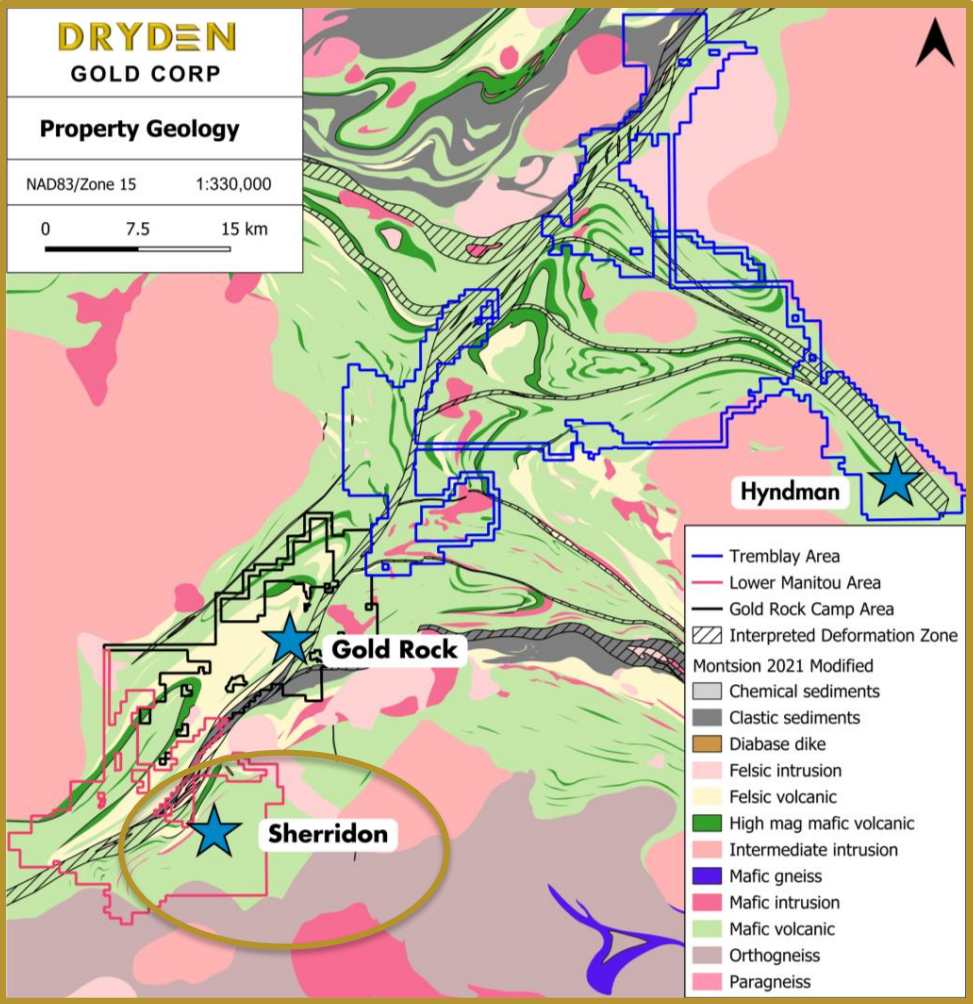

Highlights Hyndman Channel Program

23.32 g/t Au over 2.80 m
*incl. 24.79 g/t Au over 1.50 m
& incl. 36.90 g/t Au over 0.70 m*

Gold mineralization
hosted in
veining and shear zone

Potential for
4 km's of mineralization
based on trend of
granodiorite host

Sherridon | Regional Exploration

Soil & Till data being integrated into regional targeting.
Geophysical inversion study underway to vector in on targets.

Exploration Budget | Marketing

11.0 M – 2026 Funded Exploration Budget		
Item	Property	Cost (\$CAD)
Additional sampling and surveys	Early-Stage Regional Targets <i>Follow-up on soil-till program</i>	\$500,000
Mapping, Channel samples, Compilation	Regional Targets <i>Gold Rock, Sherridon, Hyndman & Other</i>	\$1,500,000
Drilling	Drill Targets <i>Gold Rock, Hyndman and Sherridon</i>	\$9,000,000

2026 Funded Exploration Budget begun in Q4 2025

32,000 Meters of Drilling in the 2026 Budget

Why Dryden Gold?

- ▲ The Team
- ▲ The High-Grade Gold
- ▲ The Geology
- ▲ The Jurisdiction
- ▲ The Infrastructure
- ▲ The Shareholders
- ▲ The Funding

New 2026 Catalysts to Continue to Create Shareholder Value

- ▲ Continue to Grow Gold Rock Target Area & Test for periodicity on strike at the Gold Rock Camp (Mud Lake & Other targets)
- ▲ Drill Test Hyndman Discovery
- ▲ Further test Sherridon Regional Target
- ▲ Review Property Wide Soil-Till Program with the goal of adding new regional targets
