Acknowledgements & Forward-Looking Statements

Dryden Gold is committed to building respectful, collaborative relationships with Indigenous Nations and communities throughout our area of operations. We recognize the importance of ongoing dialogue, mutual understanding, and meaningful engagement as we advance our exploration activities.

Certain statements contained herein constitute “forward-looking statements” within the meaning of the applicable Canadian securities legislation. These forward-looking statements are based on current expectations, estimates and projections about the Canadian mining and mineral exploration industry based on management’s beliefs and certain assumptions made by management. Readers are cautioned that such forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict, and the actual results and performance of Dryden Gold Corp. (the “Company”) may differ materially from the results implied by such statements. Readers are cautioned not to place undue reliance on any forward-looking statements. Unless otherwise required by law, the Company also disclaims any obligation to update its view of any such risks or uncertainties or to announce publicly the result of any revisions to the forward-looking statements made here.

This document contains proprietary information that is the property of Dryden Gold Corp. Neither this document, nor the proprietary information contained herein, shall be published, reproduced, copied, disclosed or used for any other purpose, other than the review and consideration of this document.

This presentation is not an offer, nor the solicitation of an offer to buy any securities. Such an offer, if made, will be made only through a prospectus or other such document issued in accordance with applicable securities laws, and other applicable laws, rules and regulations., Or pursuant to the applicable exemption from the requirement to deliver a prospectus, in accordance with applicable laws.

Historical statements contained in this document regarding past activities should not be taken as a representation that such trends or activities will continue in the future. In particular, historical results should not be taken as a representation that such trends will be replicated in the future. No statement in this document is intended to be nor may be construed as a profit forecast.

An investment in the Company is speculative and involves substantial risk and is only suitable for investors that understand the potential consequences and are able to bear the risk of losing their entire investment. Investors should consult with their own legal, tax and financial advisors with respect to all such risks before making an investment.

The Company is in the early stage of development and has a limited operational history, making it difficult to accurately predict business operations. The Company has limited resources and may run out of capital prior to becoming profitable. The Company may fail and investors may lose their entire investment.

The technical disclosure in this presentation has been approved by Maura J. Kolb, M.Sc., P.Geo. a Qualified Person as defined by National Instrument 43-101 of the Canadian Securities Administrators.

Key Value Drivers

Experienced Management

History of success in building junior mining companies and navigating M&A to create shareholder value

Technical team has extensive regional experience leading the exploration team at the Red Lake Mine

Investment Upside

- High-grade gold** across the entire Dryden District
- Limited historic drilling** – 30,000 meters
- System has never been drilled tested at depth**
- Regional Greenfield targets** at Hyndman & Sherridon
- Strategic investments** from Centerra Gold & Alamos Gold

Favorable Mining Jurisdiction

- Excellent infrastructure**, including grid power
- Major highway access** and logging roads
- Year-round drilling**
- Significant tax benefits** and government grants
- Collaborative relationships** with First Nations communities

DRYDEN

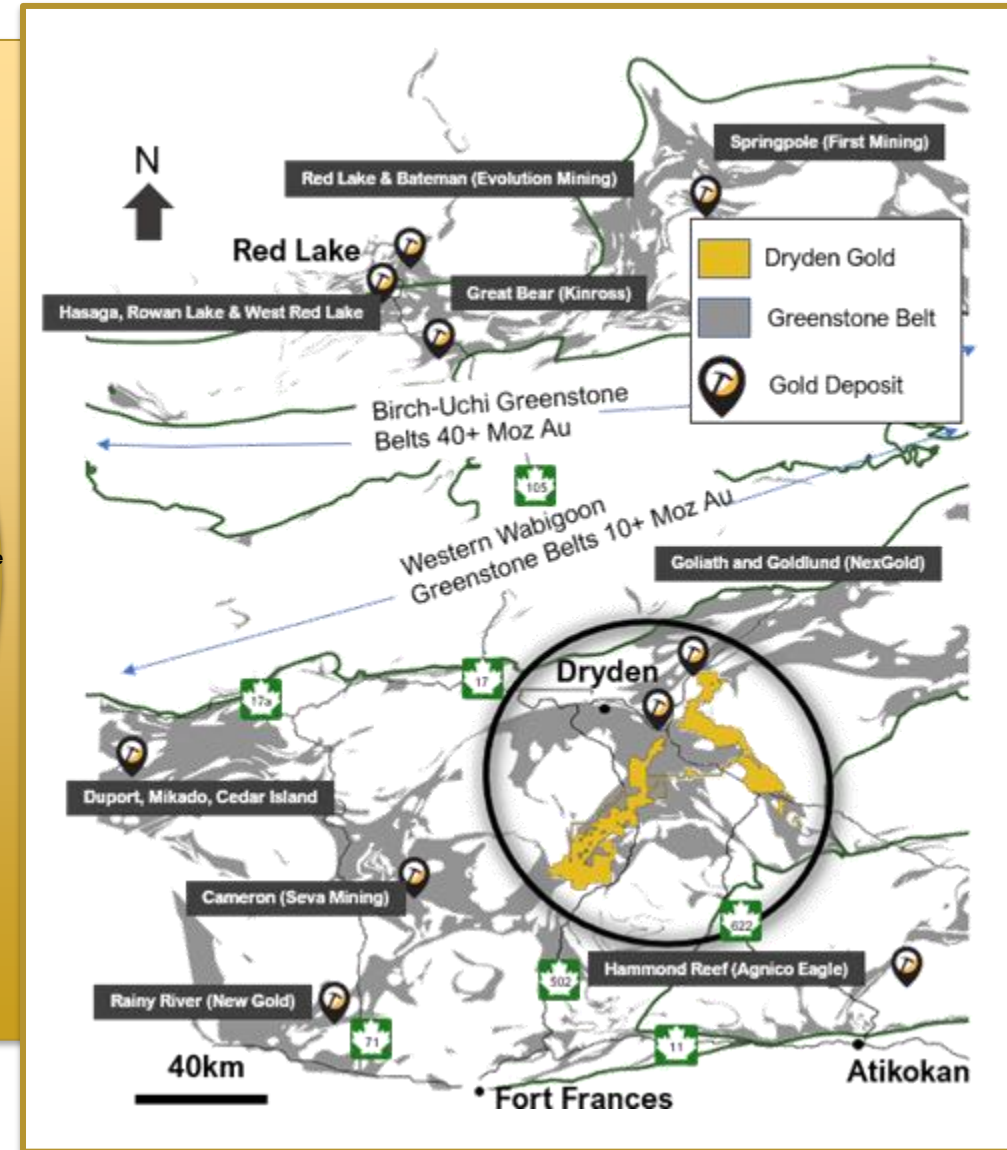

GOLD CORP

Prolific Gold Region | An Under Explored District

Archean Lode Gold Mines Camps Central Canada

Limited exploration & historic mining district-wide at only shallow depths

District Scale High-Grade Gold | Fully Funded for 2026

Two-Prong Exploration Approach

Balanced strategic exploration programs

- ▲ Near-term **Growth** at Gold Rock
- ▲ **New Regional Discoveries** on our District Scale Property

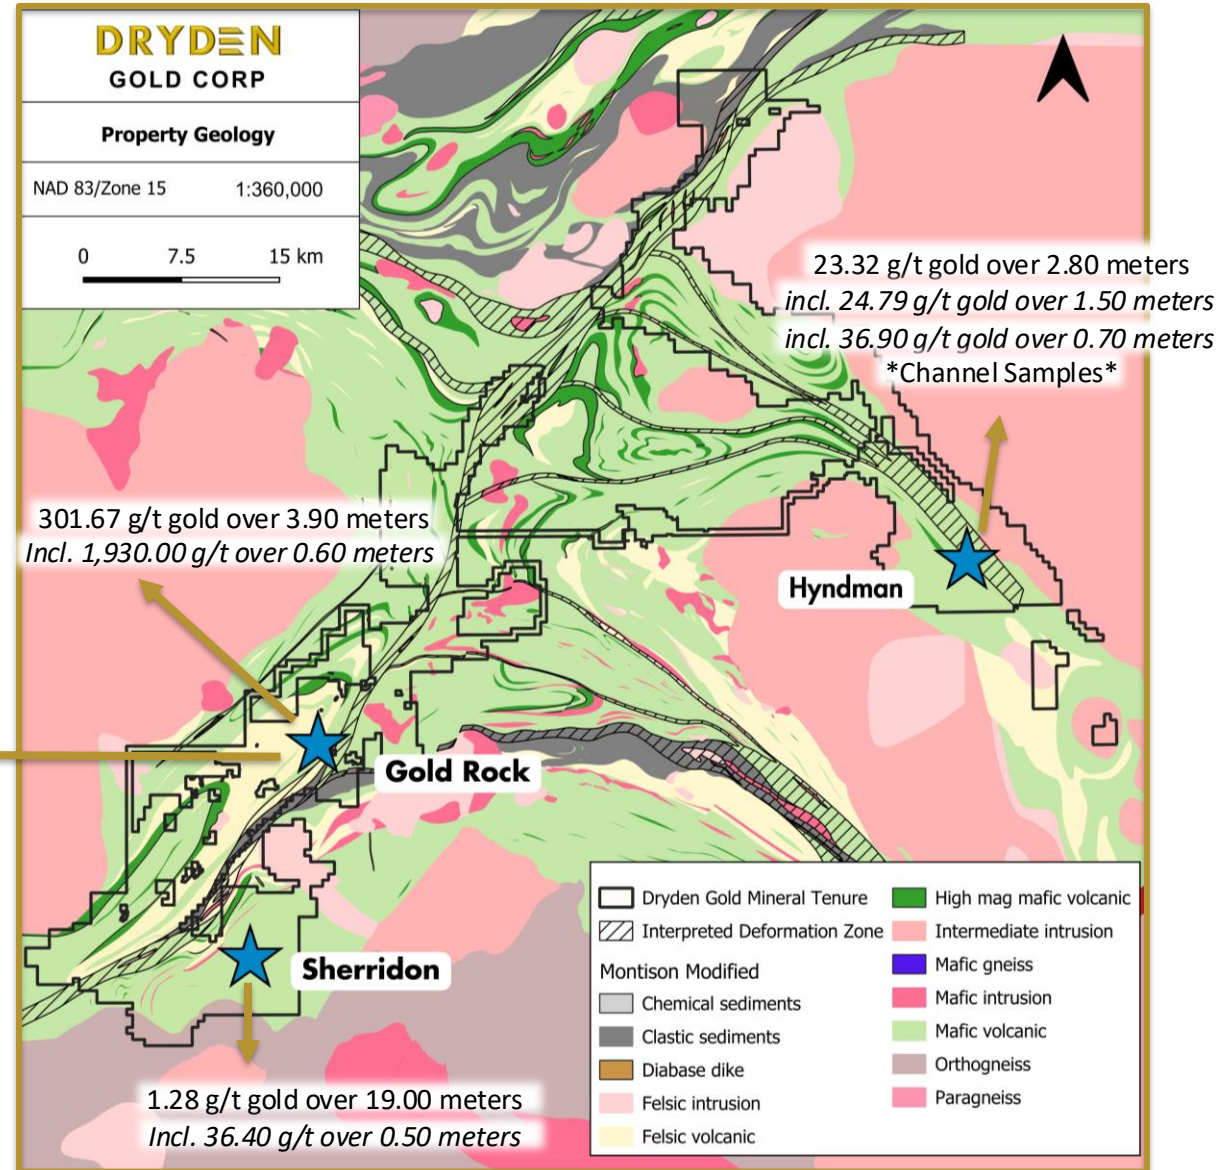

Gold Rock Camp – Our Flagship

Hyndman – Our Discovery
12km by 2.5km Gold-in-till anomaly

Sherridon – Grass roots Discovery
Contiguous to Kenorland/Centerra JV

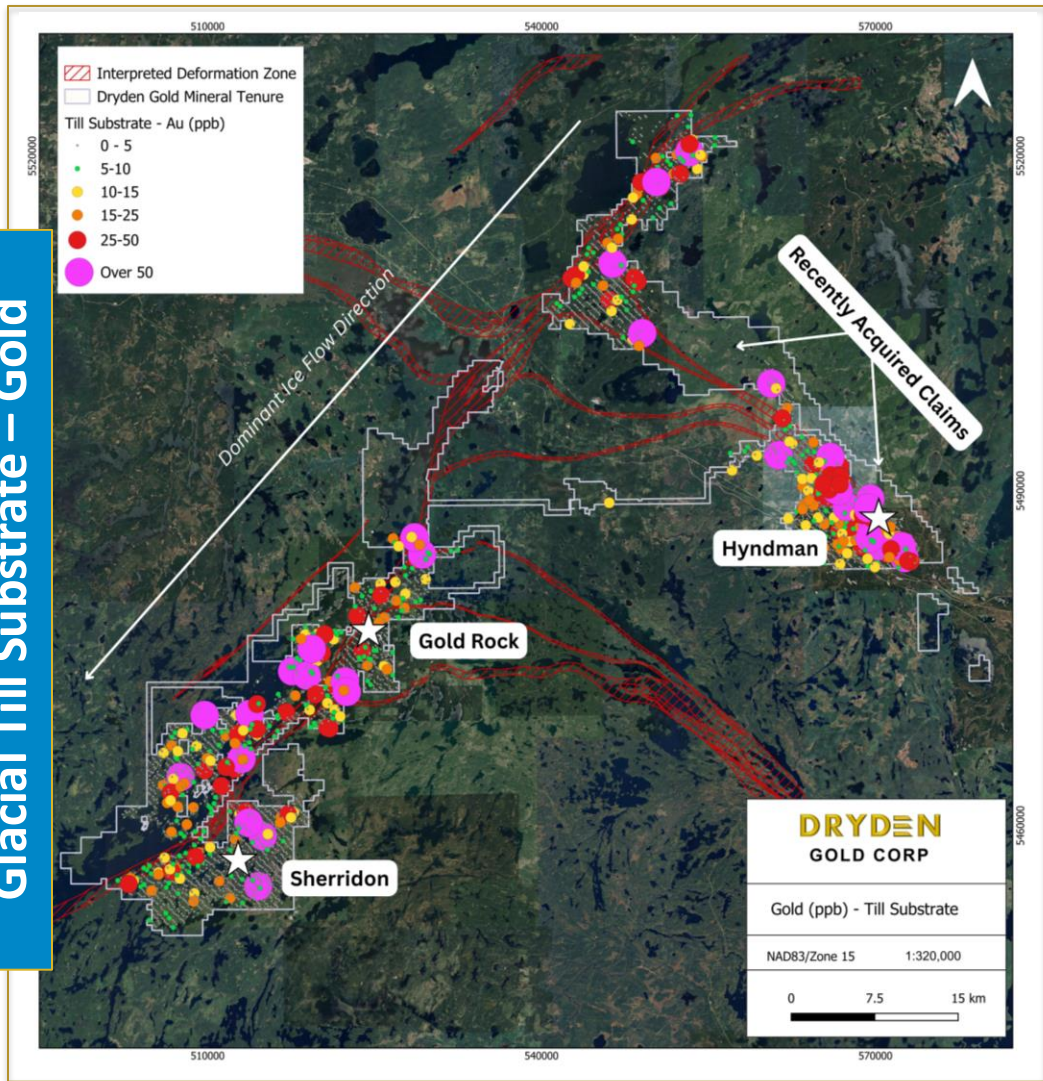

3,497.0 g/t gold over 8.45
Incl. 53,700 g/t gold over 0.55
meters
**Historic Drill Hole*

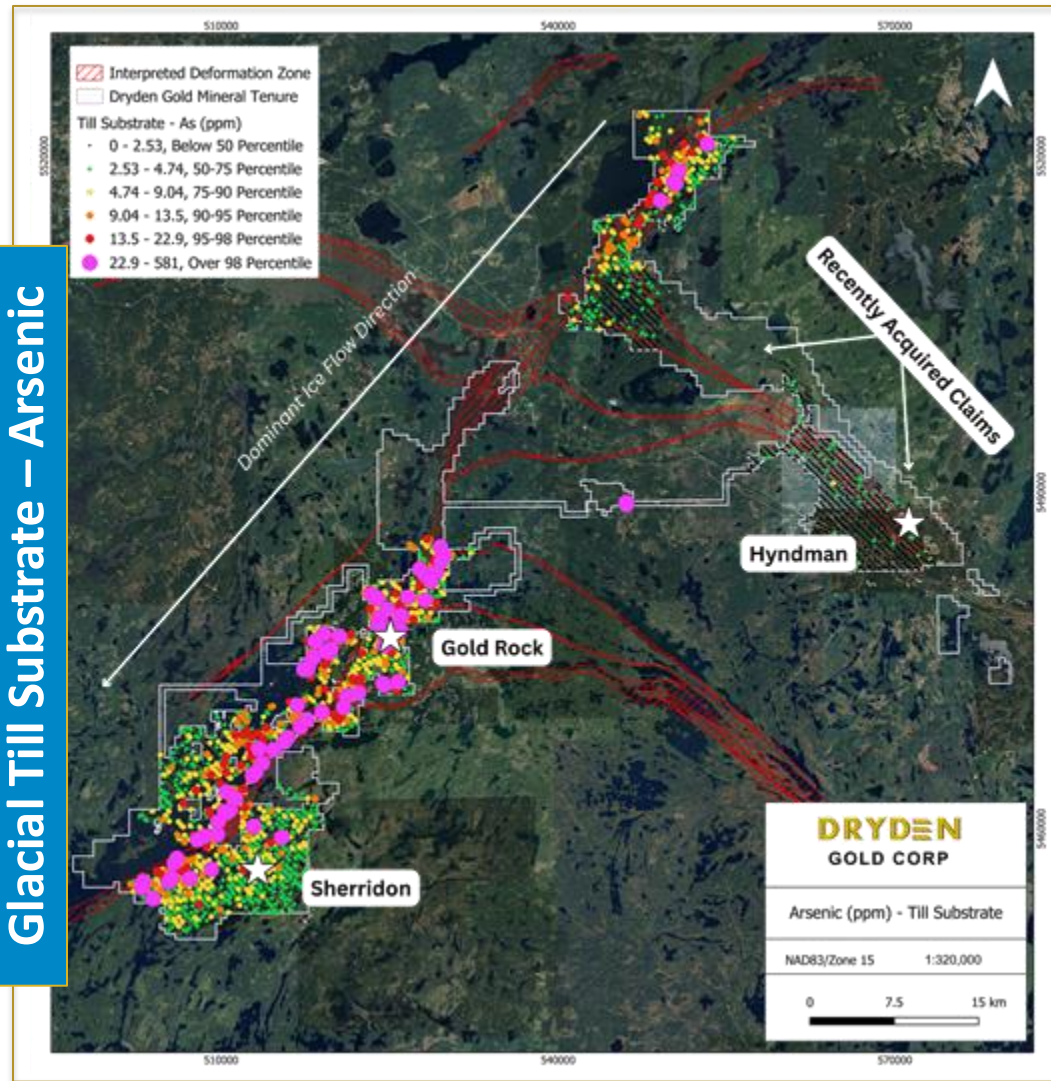

District Scale | Significant Till Substrate Anomalies

Glacial Till Substrate – Gold

Glacial Till Substrate – Arsenic

Clustered anomalous gold values along the NE-SW (D2) and are visually occurring clustered around where the (D2) intersects the older E-W D1.

Arsenic anomalies are concentrated along the NE - SW D2 structure, supporting an orogenic gold interpretation.

Hyndman lacks this arsenic signature, suggesting it may represent a different style of mineralization.

Samples were collected targeting 'C' and 'B' horizon soils (till substrate).

Gold Rock Camp

Similar Geological Setting to Red Lake

Dryden Gold Corp. Gold Rock Area Geology

Red Lake Mine Geology

Similar geological setting, rock types with regional folding and structural geometry

Favorable geological gold traps for high-grade gold

Various styles of gold mineralization
Quartz veins w/ free gold, shears hosting gold, disseminated sulfides

Very similar footprint at Red Lake and Gold Rock Camp

Stacked zones of mineralization in different structural planes at Red Lake & Gold Rock

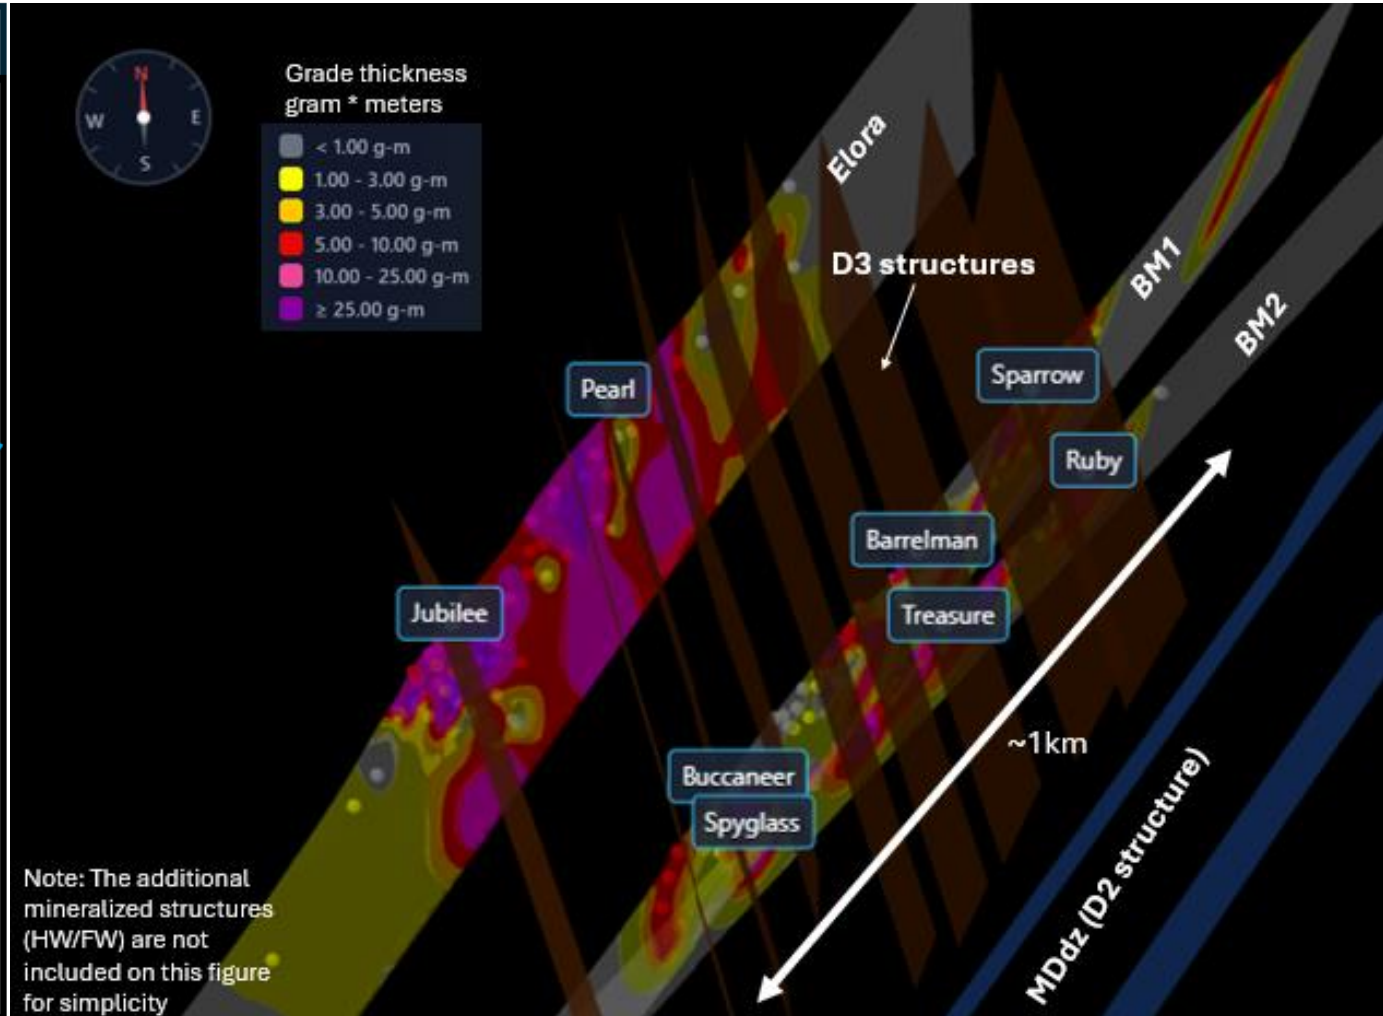

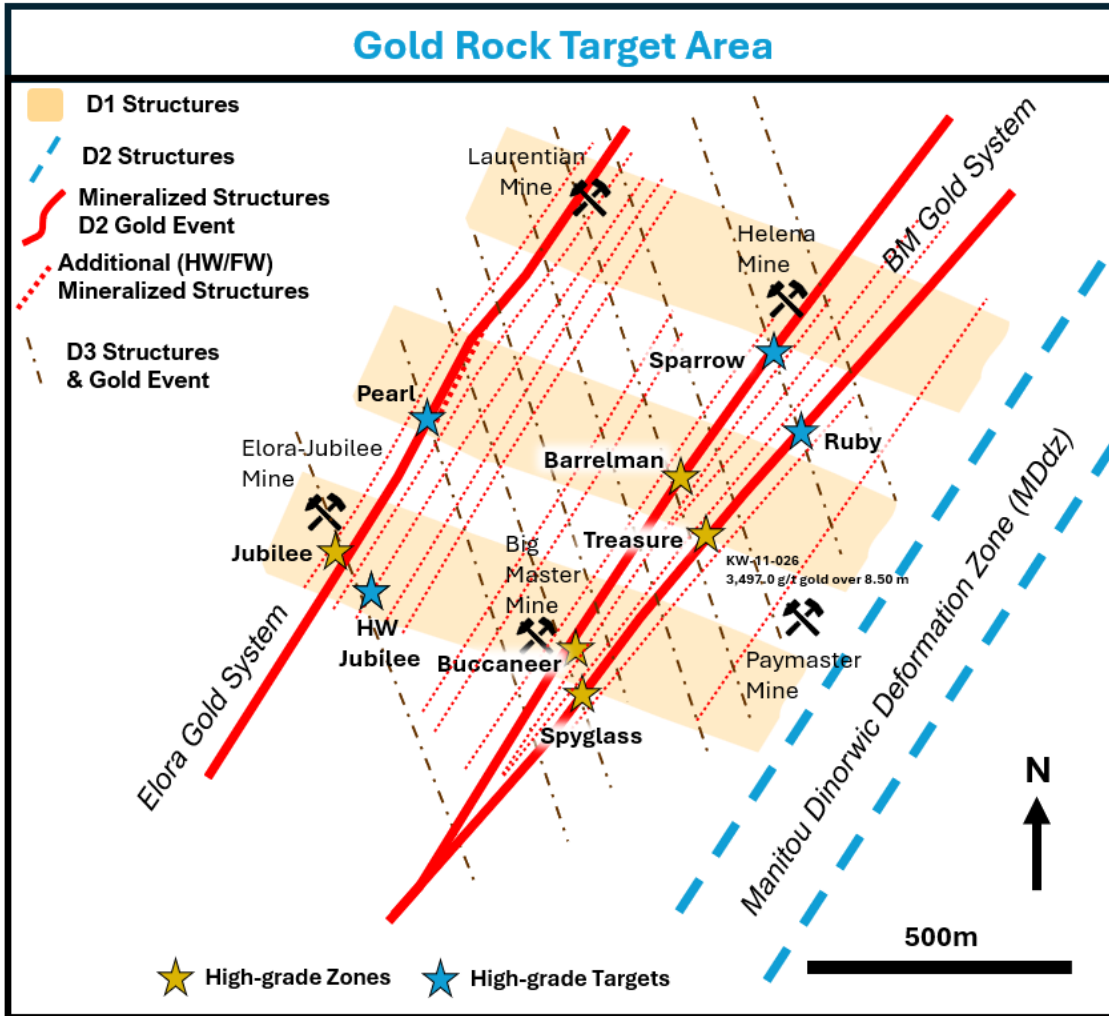

Periodicity to these mineralized areas

Red Lake discovered through mineralization outcropping on surface like Gold Rock Camp

DRYDEN

GOLD CORP

What's next for 2026?

**Accelerate drill program at Gold Rock
Adding Second Drill Rig
Planning and permitting new exploration targets**

Gold Rock Camp

- North Mud Lake
- Walmsley Deformation zone

Regional Targets

- Expanded Area at Hyndman
- Expanded Area at Sherridon

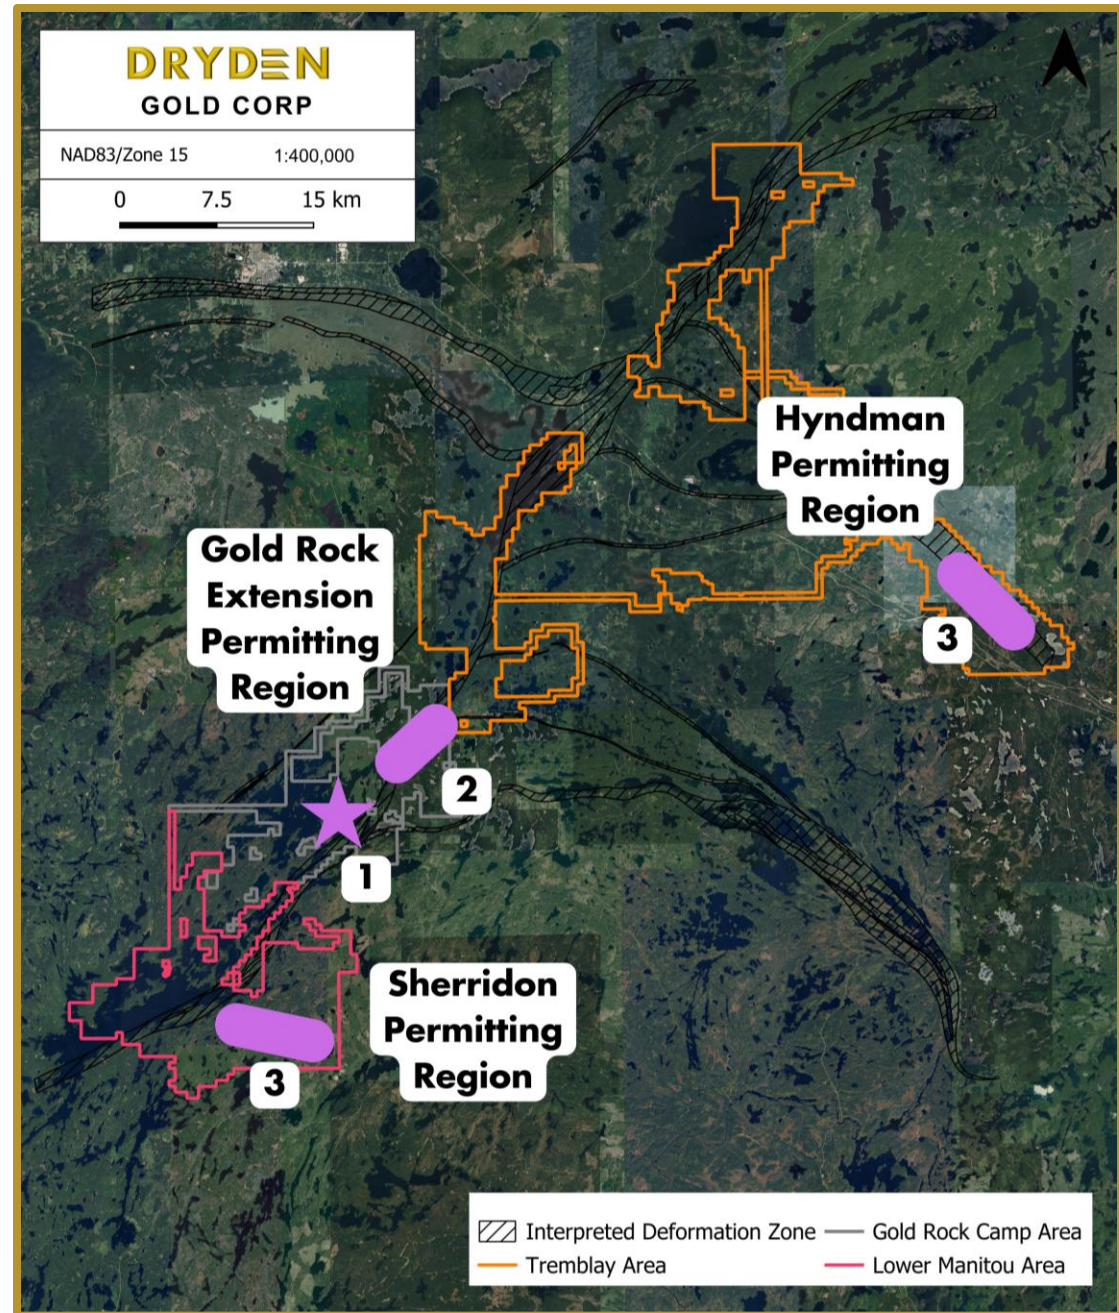

Till Substrate sampling program on new ground

Mapping and prospecting priority target areas

Regional Heavy Metal (HMC) Concentrate sampling

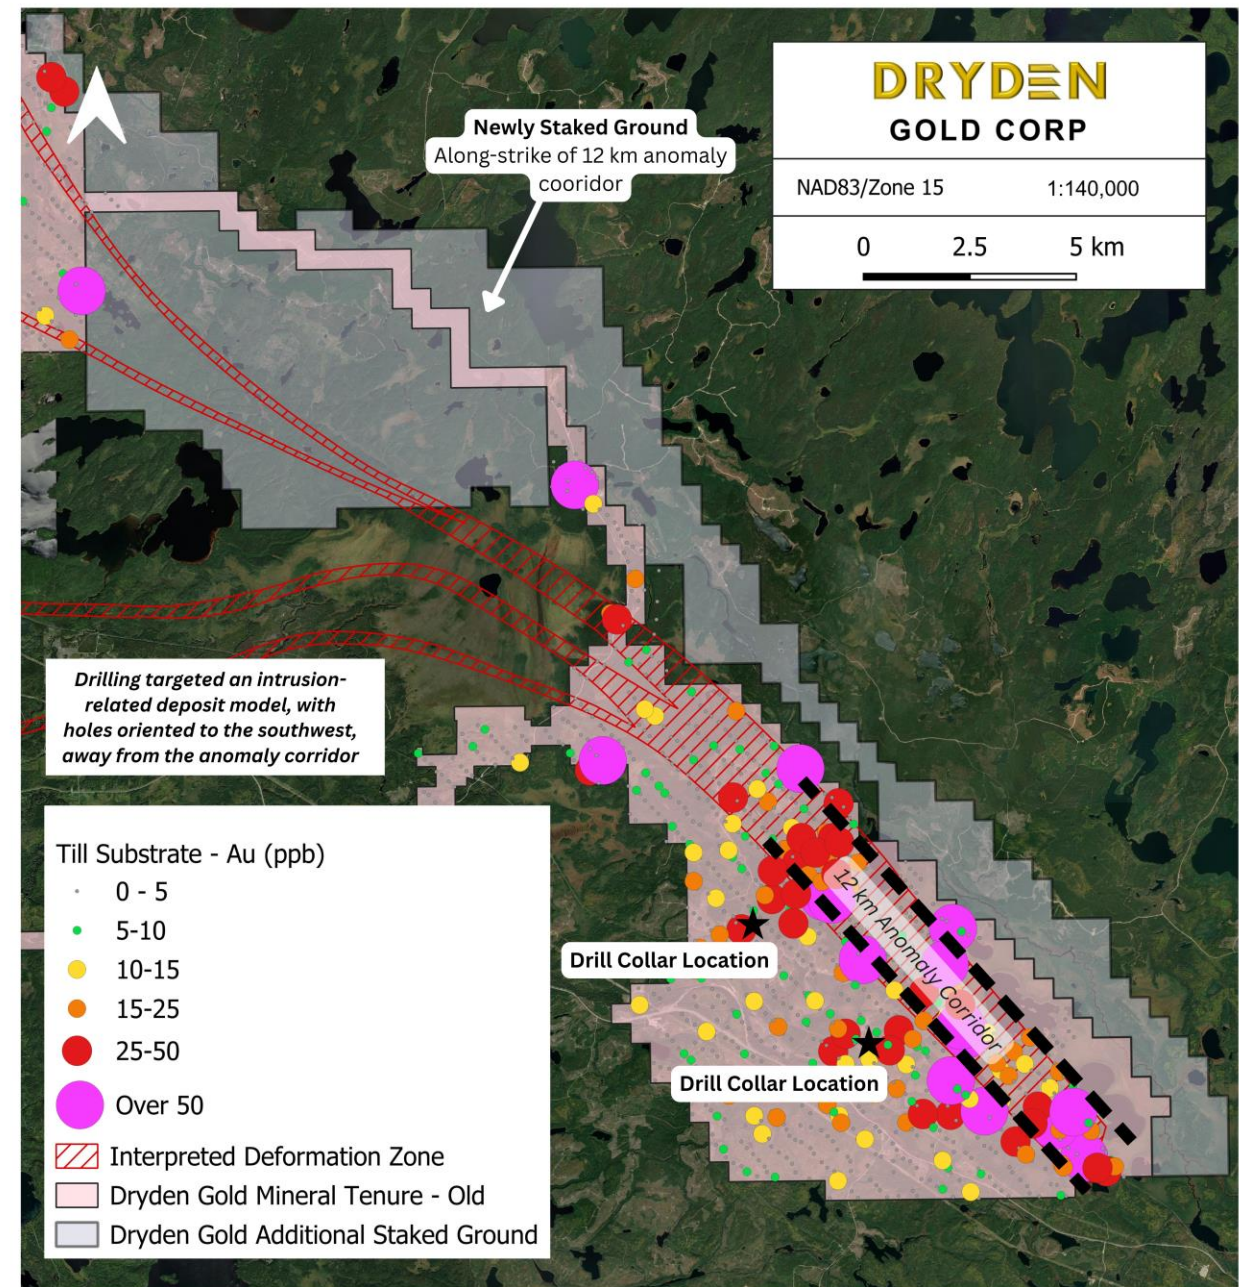

DRYDEN

GOLD CORP

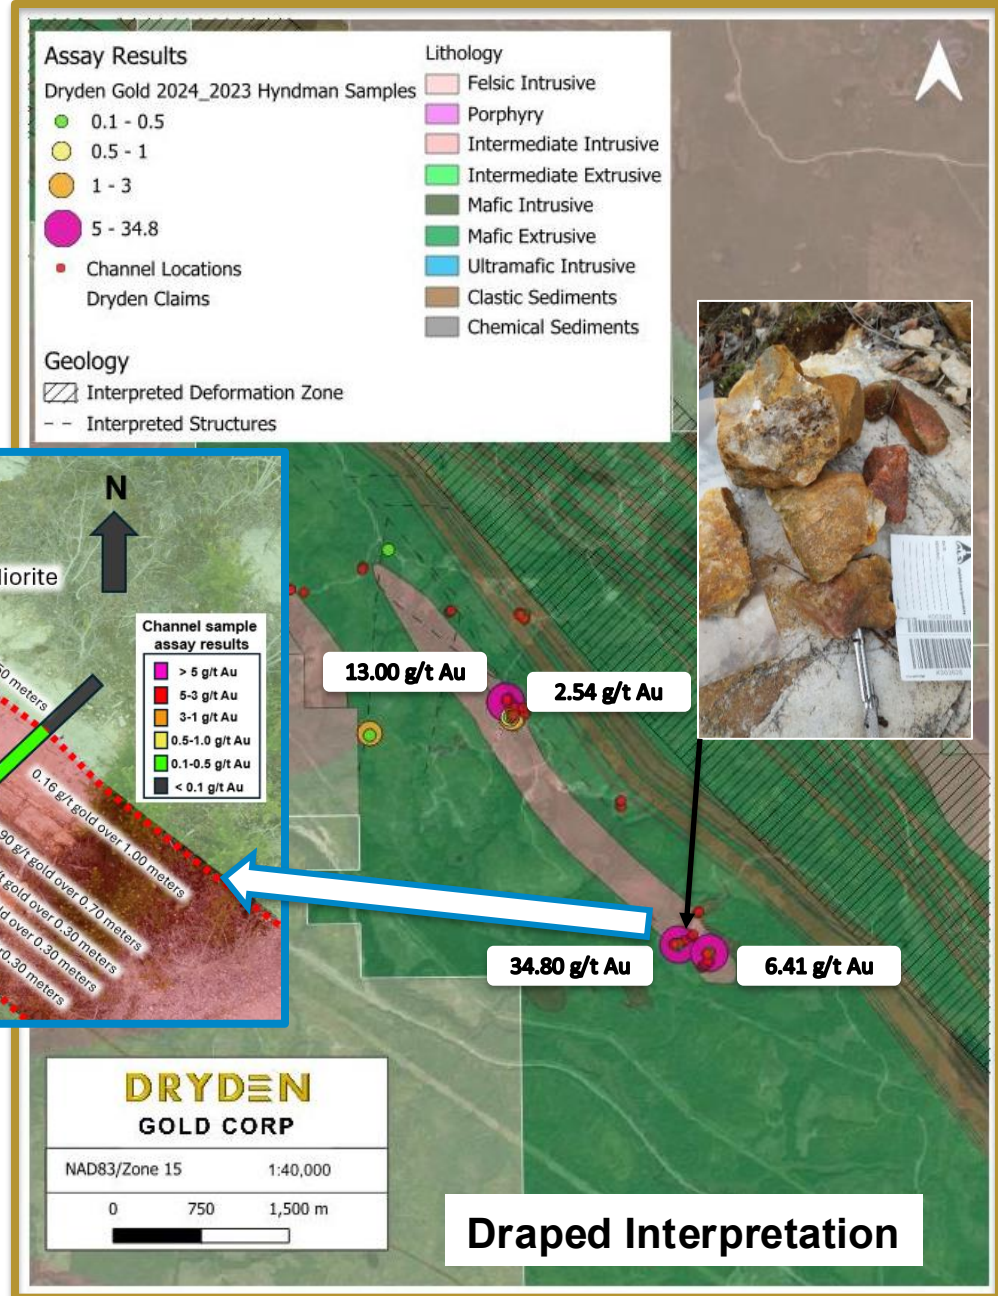

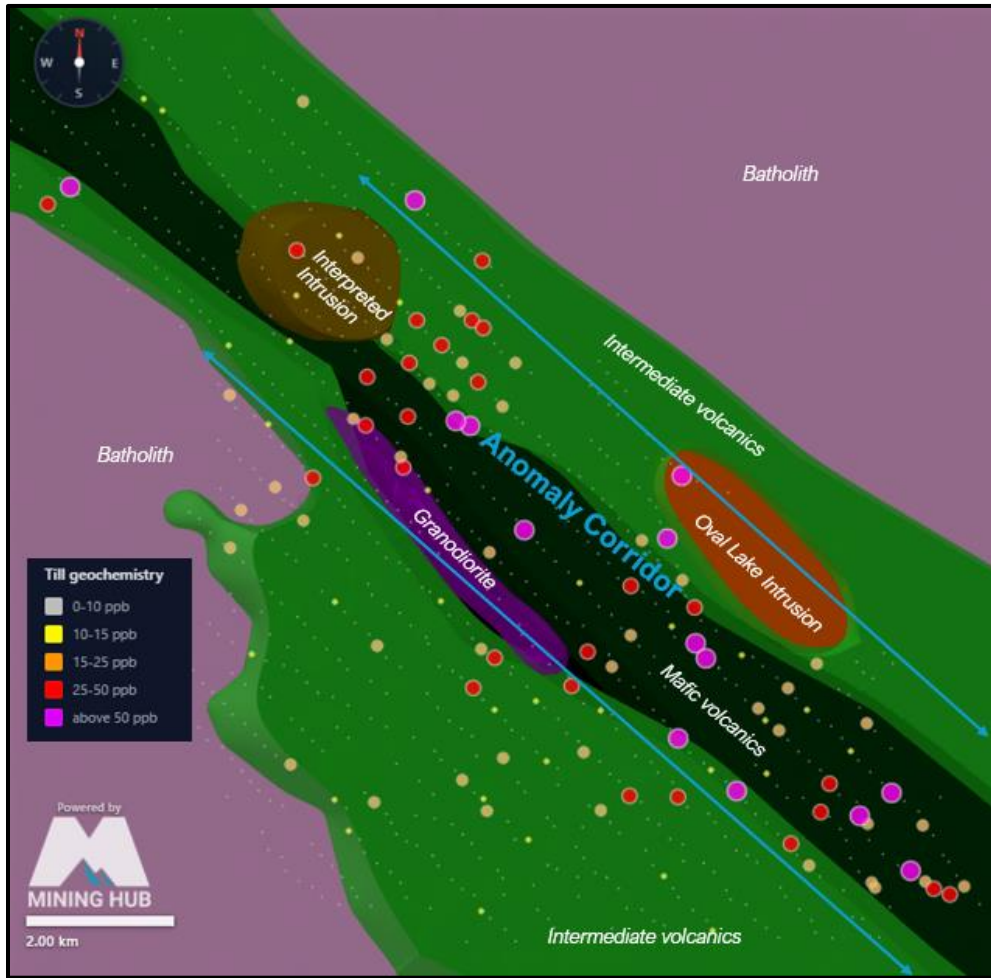

Hyndman | Regional Exploration

- Robust 12 km by 2.5 km gold-in-till anomaly corridor unlocking a highly prospective district-scale opportunity with strong discovery potential.
- Successful initial drill program at Hyndman intersected gold mineralization in all six drill holes and demonstrates both grade and continuity within the system.
- The Anomaly Corridor remains open along strike and the Company continues to expand its land position by staking an additional 12,000 hectares based on gold-in-till anomalies
- A comprehensive exploration program and an aggressive 2026 drill program is being planned. With permitting underway.

DRYDEN
GOLD CORP

Dryden Gold's Resource Pipeline

- ▲ 2026 Exploration Emphasis on **Gold Rock Camp** Targets – Growing Gold Rock Target Area on strike and at depth – Drill testing at **Mud Lake**
- ▲ Focused on **Regional Discovery – Hyndman - 12km by 2.5km anomaly corridor** and other follow up identified from Property wide Gold-in-Till program

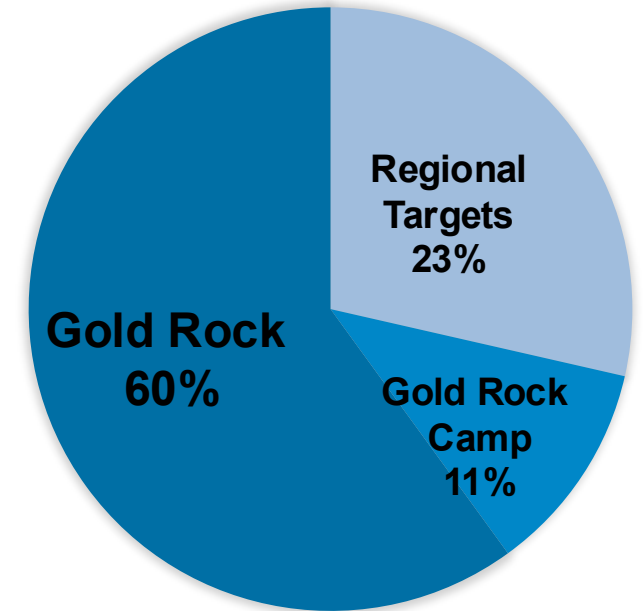

DRYDEN

GOLD CORP

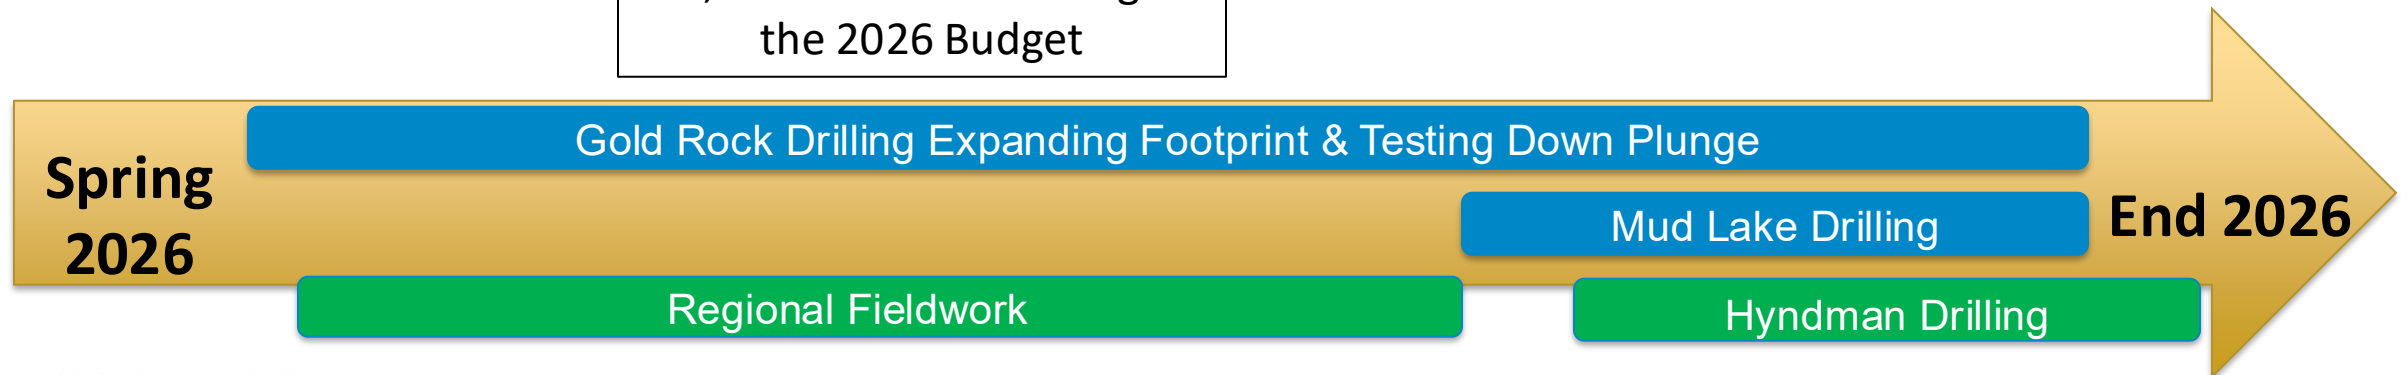

2026 Exploration Budget | Focused on Growth

\$17.5 M – 2026 Funded Exploration Budget

Target Level	Total (\$CAD)	2026 to date	
		Spent (\$CAD)	Meters
Gold Rock <i>Footprint Expansion and Down Plunge Drilling</i> <i>Addition of a Second Drill Rig</i>	\$10,500,000	\$3,000,000	~10,000
Gold Rock Camp <i>Mud Lake drilling</i> <i>Mapping of additional targets</i>	\$2,000,000		
Regional Targets <i>Drilling Hyndman and Sherridon</i> <i>Follow-up on soil-till program, Mapping</i>	\$5,000,000	\$2,000,000	~3,000

45,000 Meters of Drilling in the 2026 Budget

Why Dryden Gold?

- ▲ The Property
- ▲ The Team
- ▲ The High-Grade Gold
- ▲ The Geology
- ▲ The Jurisdiction
- ▲ The Infrastructure
- ▲ The Shareholders
- ▲ The Funding

New 2026 Catalysts to Continue to Create Shareholder Value

- ▲ Continue to Grow Gold Rock Target Area
- ▲ Test for periodicity on strike in the Gold Rock Camp with drilling at Mud Lake
- ▲ Drill Test Hyndman Granodiorite Discovery
- ▲ Further test Sherridon Regional Target
- ▲ Review Property Wide Soil-Till Program with the goal of adding new regional targets
