The accompanying notes are an integral part of these condensed interim financial statements.

1. NATURE OF AND CONTINUANCE OF OPERATIONS

Dryden Gold Corp. (the “Company” or “Dryden”) was incorporated under the *Business Corporations Act* (British Columbia) on November 19, 2021. The Company’s registered office is located at 25th floor, 700 West Georgia Street, Vancouver, BC V7Y 1K8. The Company is an exploration and development stage natural resource company engaged in the evaluation, acquisition and exploration of natural resource projects. The Company is currently focused on gold projects near Dryden, Ontario, Canada.

On December 28, 2023, Dryden completed an amalgamation with 1317223 B.C. Ltd. (the “223”) pursuant to which the Company and 223 amalgamated and continued to carry on the business of Dryden. Because the former shareholders of Dryden obtained control of the amalgamated entity, the transaction was considered to be a purchase of 223 by Dryden and is accounted for as an asset acquisition.

The Company is listed on the TSX Venture Exchange (the “Exchange”) and trades under the symbol “DRY.V”.

The recovery of the amounts comprising mineral properties is dependent upon the confirmation of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete their exploration and development, upon future profitable production, or disposition of its mineral interests.

These condensed interim financial statements have been prepared by management on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. For the six months ended June 30, 2026, the Company incurred a net loss of \$5,415,876 (June 30, 2025 - \$3,125,401). As at June 30, 2026, the Company had working capital of \$14,239,173 (December 31, 2025 - \$9,620,940). The continuing operations of the Company are dependent upon its ability to continue to raise adequate equity financing in the future and repay its liabilities arising from normal business operations as they become due. These material uncertainties may cast significant doubt about the Company’s ability to continue as a going concern.

These condensed interim financial statements were approved by the Board of Directors for issue on August 27, 2026.

2. STATEMENT OF COMPLIANCE

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) for interim information, specifically International Accounting Standards (“IAS”) 34 – Interim Financial Reporting.

The accounting policies and methods of application applied by the Company in these condensed interim financial statements are the same as those applied in the Company’s most recent annual financial statements as at and for the year ended December 31, 2025. These condensed interim financial statements do not include all of the information required for full annual financial statements and therefore should be read in conjunction with most recent annual financial statements as at and for the year ended December 31, 2025.

3. BASIS OF PREPARATION

The condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit or loss, which are stated at their fair value. The financial statements are presented in Canadian dollars, which is also the Company’s functional currency. In addition, the financial statements have been prepared using the accrual basis of accounting except for cash flow information. The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company’s accounting policies. The areas involving a higher degree of judgement of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

Going Concern

The continuing operations of the Company are dependent upon its ability to continue to raise adequate equity financing in the future and repay its liabilities arising from normal business operations as they become due. These material uncertainties may cast significant doubt about the Company’s ability to continue as a going concern.

4. MATERIAL ACCOUNTING POLICY INFORMATION

(a) Use of judgements and estimates

In preparing these interim financial statements, management has made judgments and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgments made by management in applying the Company’s accounting policies and the key sources of estimation uncertainty are consistent with those described in the December 31, 2025 annual financial statements.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Cont'd...)

(b) Standards and interpretations issued but not yet effective

At the date of authorization of these condensed interim financial statements, the IASB has not issued any new or revised standards expected to have a material impact on the results and financial position of the Company when adopted.

5. MANAGEMENT OF CAPITAL

The Company is an exploration stage company and this involves a high degree of risk. The Company has not determined whether its mineral properties contain economically recoverable reserves of ore. The Company's primary source of funds comes from the issuance of share capital. The Company does not use other sources of financing that require fixed payments of interest and principal due to lack of cash flow from current operations and is not subject to any externally imposed capital requirements.

The Company defines its capital as equity. Capital requirements are driven by the Company's exploration activities on its mineral properties. To effectively manage the Company's capital requirements, the Company has a planning and budgeting process in place to ensure that adequate funds are available to meet its strategic goals. The Company monitors actual expenses to budget on all exploration projects and overhead to manage costs, commitments, and exploration activities.

There have been no changes to the Company's approach to capital management during the six months ended June 30, 2026.

(c) Stock options

On April 4, 2023, the Company's board of directors adopted a stock option plan (the "Stock Option Plan") whereby it can grant incentive stock options to directors, officers, employees, and technical consultants of the Company. The maximum numbers of shares that may be reserved for issuance under the Stock Option Plan is limited to 10% of the issued common shares of the Company at any time. The vesting period for all options is at the discretion of the Board of Directors. The exercise price will be set by the Board of Directors at the time of grant and cannot be less than the discounted market price of the Company's common shares.

The Stock Option Plan provides that the number of common shares that may be reserved for the issuance to any one individual upon exercise of all stock options held by such an individual may not exceed 5% of the issued common shares, if the individual is a director or officer, or 2% of the issued common shares, if the individual is a consultant or engaged in providing investor relations services, on a yearly basis. All options granted under the Stock Option Plan will expire not later than the date that is ten years from the date that such options are granted. Options terminate earlier as follows: (i) immediately in the event of dismissal with cause; (ii) 90 days from date of termination other than for cause; or (iii) one year from the date of death or disability. Options granted under the Stock Option Plan are not transferable or assignable other than by will or other testamentary instrument or pursuant to the laws of succession.

12. RELATED PARTY TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

Key management personnel include persons having the authority and responsibility for planning, directing, and controlling the activities of the Company as a whole. The Company has identified its directors and officers as its key management personnel and the compensation costs for key management personnel and companies related to them are recorded at their exchange amounts as agreed upon by transacting parties.

Remuneration for key management personnel of the Company was as follows:

		Three months ended June 30,			Six months ended June 30,	
		2026	2025		2026	2025
Consulting fees*	\$	111,250	\$ 111,250	\$	222,500	\$ 222,500

	\$	242,778	\$ 261,285	\$	499,166	\$ 519,558

* Included in consulting fees at June 30, 2026 is \$125,000 (2025 - \$62,500) in deferred compensation that is due to the Company's CEO for deferred consulting fees. The deferred compensation balance becomes due on January 1, 2028 and may be deferred in continuous three-month intervals at the election of the Company's CEO.

As at June 30, 2026, \$712,500 (December 31, 2025 - \$587,500) was due to a related party for deferred compensation.

As at June 30, 2026, \$72,450 is due to a related party (December 31, 2025 - \$Nil) that is included in accounts payable and accrued liabilities.

13. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

For the six months ended June 30,	2026	2025
Significant non-cash investing activities consisted of:		
Common shares issued for mineral properties	\$ 193,000	\$ 989,865

14. SEGMENT INFORMATION

The Company has one reportable operating segment, the acquisition and exploration of mineral properties in one geographic location: Canada.

15. FINANCIAL INSTRUMENTS

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Market Risk

Market risk is the risk that the fair value or future cash flows from a financial instrument will fluctuate because of changes in market prices or prevailing conditions. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk and are disclosed as follows:

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company holds no financial instruments that are denominated in a currency other than Canadian dollars. As at June 30, 2026 the Company is not exposed to currency risk.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in market risk. The Company's sensitivity to interest rates relative to its cash balances is currently immaterial. The Company also has no long-term debt with variable interest rates, so it has no negative exposure to changes in the market interest rate.

(iii) Price rate risk

The Company has no exposure to price risk with respect to equity prices as the Company is not listed. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market.

15. FINANCIAL INSTRUMENTS (cont'd...)

Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash. The Company limits the exposure to credit risk by only investing its cash with high-credit quality financial institutions. Management believes that the credit risk related to its cash is negligible.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. At June 30, 2026, the Company has no sources of revenue but has a cash balance of \$14,555,143 (December 31, 2025 - \$9,313,098) to settle current accounts payable and accrued liabilities of \$609,853 (December 31, 2025 - \$104,802). As such, management feels the Company has sufficient cash to fund corporate overhead costs and the repayment of the Company's debt obligations for the next year. The Company's exposure to liquidity risk is currently negligible, however, the Company has no source of revenue and will require additional equity financings in the future.

Fair Value Measurements

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, and
- Level 3 – Inputs that are not based on observable market data.

As at June 30, 2026, the Company's financial instruments consist of cash and cash equivalents and accounts payable and accrued liabilities. Cash and cash equivalents and accounts payable and accrued liabilities are classified as amortized cost. The fair value of cash and cash equivalents and accounts payable and accrued liabilities approximates their carrying value because of the short-term nature of the instruments.

16. EVENTS AFTER THE REPORTING PERIOD

- Subsequent to June 30, 2026, 2,165,863 warrants were exercised for total gross proceeds to the Company of \$389,855.
- Subsequent to June 30, 2026, the Company received \$1,596,250 in GST receivable.
- On June 29, 2026, the Company entered into an option agreement with Orebot Inc. (“Orebot”), whereby the Company can acquire a 100% interest in certain claims making up the Lost Lake property by making \$100,000 in aggregate payments to Orebot, and issuing 125,000 shares, as follows:
 - Upon signing – \$10,000 cash (paid) and issuing 25,000 shares (issued)
 - On or before the first anniversary of the effective date – \$40,000 cash and issuing 50,000 shares
 - On or before the second anniversary of the effective date – \$50,000 cash and issuing 50,000 shares

Upon exercising the option on the Lost Lake property, Orebot will retain a 3% NSR, one-half of which may be purchased by the Company for a cash payment of \$1,000,000.

On August 18, 2026, the Exchange approved the option agreement for filing and the Company closed the initial tranche of the consideration by paying \$10,000 cash and issuing 25,000 shares.
